

# INTERNATIONAL CONFERENCE ON CLIMATE CHANGE

March 2 - 4, 2008 • New York City

## Global Warming: Truth or Swindle?

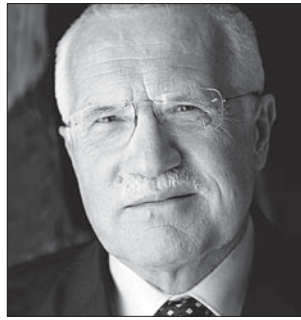

### There Is No Consensus

More than 400 scientists, economists, and experts will meet in New York on March 2-4 to challenge the claim that global warming is a "crisis." They include leading climatologists and experts from around the world, including those pictured here. Fifty nonprofit organizations have come together to cosponsor the event.

This event proves there is no scientific consensus on the causes or likely consequences of global warming.

To be part of this historic event, or to order video recordings of more than 20 panel discussions and six keynote addresses, call 312/377-4000 or visit The Heartland Institute's web site at [www.heartland.org](http://www.heartland.org).
